Our product overview

Discover the finest natural ingredients, crafted with over 100 years of expertise in sourcing sustainable, globally-selected naturals. We use only plants from certified organic cultivation, ensuring premium quality at every step. By-products from food processing are repurposed as valuable resources, championing environmentally conscious practices and a circular economy. Quality, sustainability, and innovation—our commitment to a better future.

Oat Grass (*Avena sativa*): Natural skin-protection

WorléeXtra Oat Grass

Harvesting during early summer before the oat grains develop to maintain valuable ingredients known for their soothing effects.

-  Locally sourced from Germany
-  Utilization of by-products

Hibiscus (*Hibiscus sabdariffa*): Refreshing fruit acids

WorléeXtra Hibiscus

Our hibiscus is grown under strict ecological standards that meet the highest quality requirements for use in tea beverages.

-  Outstanding organic quality from Egypt

Great Burdock root (*Arctium lappa*): Refreshing root

WorléeXtra Great Burdock Root

Our Burdock is grown in its native origin in central Europe certified organic farming to meet the highest standards for the pharmaceutical industry.

-  Locally sourced from Central Europe
-  Utilization of by-products

Elderberries (*Sambucus nigra*): Superfood for your skin

WorléeXtra Elderberry

Elderberries a superfood rich in antioxidants and vital nutrients, with proven antibacterial and antiviral properties.

-  Locally sourced from Central Europe

Cranberries (*Vaccinium macrocarpon*): Superfood for your skin

WorléeXtra Cranberry

Cranberries act as powerful antioxidants due to their ingredients such as Vitamin C and polyphenols (e.g. Proanthocyanidine).

-  Native source in Northern America
-  Utilization of by-products

Partnering with Worlée Naturprodukte GmbH, we forge lasting partnerships with farmers and suppliers worldwide, conducting thorough audits in their countries of origin to uphold our commitment to quality and social standards. In addition we have the possibility to use the by-products from food processing a resource that supports environmentally conscious and circular economic practices.

-  Traceability in the supply chain
-  Utilization of by-products
-  Only plants from organic cultivation

The values that guide our actions

We are committed to forward-looking and prudent environmental protection and to preventive and comprehensive occupational health and safety as a corporate goal.

We are convinced, that the natural goods of water, air, and soil must be treated carefully as a part of our responsible business practices. In this way, the ecosystem in which we live can be preserved as the basis of life for future generations as well. This particularly applies to the economical and efficient use of energy and natural resources.

We stand by our responsibility to provide safe and secure production, storage, and transport. We ensure that our products are handled conscientiously along the entire value-added chain.

Let's work together
